

THE MILL HOUSE SKIPTON

WELCOME TO HADRIAN HEALTHCARE

As owner and Chairman of Hadrian Healthcare Group, I am extremely proud of the reputation we have gained for being one of the UK's premier providers of elderly care.

Our homes provide a very special level of accommodation and care for our clients and I am delighted that we will now be able to offer this to more people with the opening of our wonderful new home in Skipton.

This luxury home, set on the site of an old mill and overlooking the Leeds and Liverpool Canal, will be the perfect choice for those seeking the very best care in beautiful, homely surroundings.

Each of our homes is designed and furnished with great care to provide our residents with an exceptional standard of quality living.

Our emphasis is very much on encouraging our residents to enjoy an independent lifestyle whilst always respecting the dignity and choice of every individual.

Developing and nurturing a highly trained and committed care team is our highest priority as we aim to provide a very compassionate level of support and friendship to every one of our residents when it is needed.

Whilst the development is not complete for you to see, I hope this brochure gives you a taste of what to expect at The Mill House Skipton and The Mill Lodge.

INDIVIDUAL CARE TO SUIT YOUR NEEDS

We are committed to ensuring that every one of our residents is provided with the highest level of compassionate and quality care.

In order to do this we work closely with residents and their families, and with appropriate health professionals.

Residential Care

Each of our residents will enjoy luxurious private accommodation within small living groups specifically designed for them to maintain their independence, whilst having the comfort of knowing that 24-hour care is available and at hand whenever it is needed.

Respite Care

Respite care is helpful for individuals who need a short break away from their home.

Alternatively, they may be uncertain about moving into a care home permanently or require convalescence following hospital treatment.

We will always seek to accommodate these needs and be as flexible as possible.

SPECIALIST CARE WITH DIGNITY

We recognise the special needs of our residents living with dementia and other memory impairments.

Our staff are trained to help manage the unique needs of our residents living with dementia. We always ensure our care delivery remains individual and compassionate to maintain the quality of life and dignity of all our residents.

Our specialist Chesters accommodation is specifically designed to provide luxurious surroundings that are homely, safe and stimulating.

These will include a lovely village square where residents can meet up, have a chat and reminisce, and a delightful landscaped outside terrace overlooking the canal and our beautifully landscaped gardens - a perfect place to enjoy the peaceful stimulation that nature provides.

We will also offer Respite Care within Chesters for those who might need a little bit of short term extra care or are perhaps uncertain about living with us and would like to stay with us for a while.

Extensive Programme of Social Events

There will be a wide range of social events to choose from to ensure that we meet the tastes of everyone. As well as interesting talks, art, poetry, music or trips to many of the local places of interest, we will always try to help with particular hobbies and perhaps even assist our residents to achieve those special 'dream come true' moments.

Our lifestyle co-ordinator will get to know each resident and liaise closely with them to ensure they continue to get the best out of life. Together with our resident liaison manager, they will help residents to plan which of our many activities to enjoy and make the most of all the social events on offer.

Private Telephone and Wifi

Having time for privacy is an important part of daily life. At The Mill House Skipton, each resident will have their own private telephone with a dedicated extension number for those all-important calls with family and friends to keep in touch.

Residents will also have access to internet facilities and free wifi. Video calls are a part of so many of our lives today and having the opportunity to keep in touch with relatives and friends in this way is always a good thing. For those who 'surf the net', this can also be enjoyed.

There'll be a lot more to enjoy at The Mill House Skipton in the pages which follow.

DINING IN STYLE

A wide range of dining options will be available – from dining in our restaurant, where family and friends can join you, or enjoying the varied selection in our bistro with a choice of delicious food. In addition, there's always our 'lite-bite' menu for everyone to enjoy, including guests.

Dining In

Our menus are updated daily and designed to suit all tastes. Every resident is consulted regarding their preferences and our food is of the highest quality and locally sourced.

Our in-house chef will meet with residents to listen to menu suggestions or chat individually regarding any special dietary needs or preferences.

From our fully-stocked bar, residents can enjoy wine with their meals, an after-dinner brandy or just a social drink when catching up with friends.

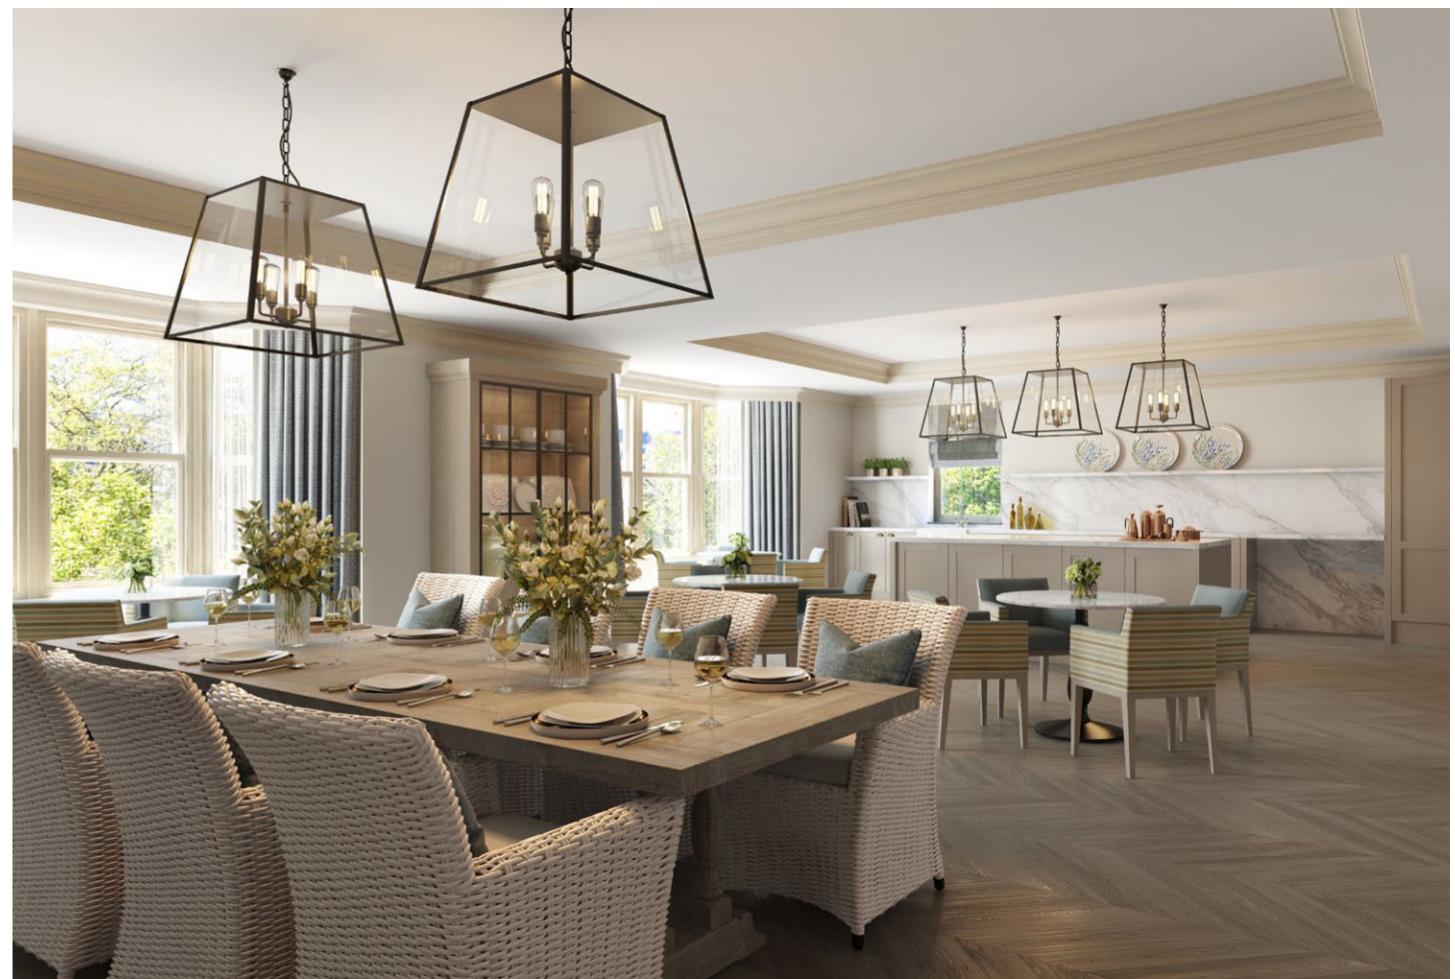

Private Dining Room

Residents will be able to pre-book and host a delicious dining experience in our private dining room. With the opportunity to choose the menu and with silver service attendance, this will be a fantastic venue to celebrate special occasions with loved ones.

Café bar

Our traditional café bar overlooking the beautiful terraced gardens will be the perfect location for a cuppa and catch up with friends and a homemade tasty treat. Enjoy sunny days outdoors here too. For those days when you just need it, room service and a smile will always be available.
